Simple Setup with Echo Device

Check "LINK TO YOUR ALEXA"
at Checkout.

- -

STEP 1

• Make sure to first set up your Echo
device.

STEP 2

• Power on your Tapo smart plug and
get close to Echo. Go to Step 3 if
your Echo or Alexa app notifies
"New plug found".

• Otherwise, refer to the reverse side
for the troubleshooting guide.

STEP 3

• Once you've completed setup, you
can use your Tapo smart plug with
Alexa. Just say "Alexa, turn on First
Plug".*

Alexa!

*The name of the plug changes with the
order in which it is added.

Troubleshooting Guide

Follow the steps below to manually set up your Tapo smart plug and enable Alexa voice control.

1 **Manual Plug Setup via Tapo**

Open the Tapo app and tap the + icon to start the manual setup process.

2 **Linking Tapo to Alexa**

On your Tapo app, go to **Me > Third-Party Services**, select **Amazon Alexa**, and follow the app guidance to complete the connection.
